

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES: EPS - Ethanol Protection

Product No	7918
Issue No.	3
Issue Date	30/07/21

DESCRIPTION:

This product is a fuel treatment which provides ethanol protection when using unleaded fuel. Prevents fuel system corrosion and helps protect components. Also compatible with catalytic converters. Designed for modern unleaded fuel including E5 and E10.

APPLICATION:

Suitable for 2 and 4 stroke petrol engines, vintage, classic, modern cars (manufactured before 2011), trucks, motorcycles, scooters, jet skis, boats, small garden machinery and any type of vehicle that requires unleaded fuel.

Dosage Rate = One 250ml bottle treats 50 litres of unleaded fuel.

USER BENEFITS:

- Endorsed by the Federation of British Historic Vehicle Clubs (FBHVC) to protect against the corrosion effects of ethanol in modern fuels.
- Combats the adverse effects of ethanol in unleaded fuel
- Prevents fuel system corrosion.
- Helps protect components.
- Carburettor anti-icing formula.
- Compatible with catalytic converters.

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C	0.820
Flashpoint °C	75
Colour	Clear

HEALTH AND SAFETY:

Health and Safety Data Sheet 7918 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
