

PRODUCT DATA SHEET

PRODUCT NAME/VISCOSITIES: **TANK SAFE**

Product No	7919
Issue No.	2
Issue Date	26/02/19

DESCRIPTION:

High quality petrol additive providing anti corrosion protection and vapour phase inhibition.

APPLICATION:

By addition to the fuel tank contents at the end of season “lay up” will provide fuel tank and fuel system protection whilst being stored.

USER BENEFITS:

Tank Safe has been specifically formulated for petrol fuelled engines whether carburettor or fuel injected.

- Extremely effect corrosion protection and vapour phase inhibition (VPI).
- Carburettor cleanliness improved.
- Fuel system corrosion protection improved.
- Fully compatible with all types of petrol - leaded, unleaded and oxygenated.
- Very economical treatment rates.

PERFORMANCE PROFILE:

Add one bottle to fuel tank contents of approximately 50 litres and temporarily block any open fuel breathers for maximum efficiency.

Storage Instructions: Avoid strong direct light and heat.

TYPICAL CHARACTERISTICS:

Specific gravity at 15°C 0.811

HEALTH AND SAFETY:

Health and Safety Data Sheet 7919 applies to this product. When used for the purpose recommended and with due regard to the appropriate Health and Safety Data, the product should cause no concern. If in doubt, consult with Millers Oils technical department.
