

ZircoFlex® SHIELD R Air Intake

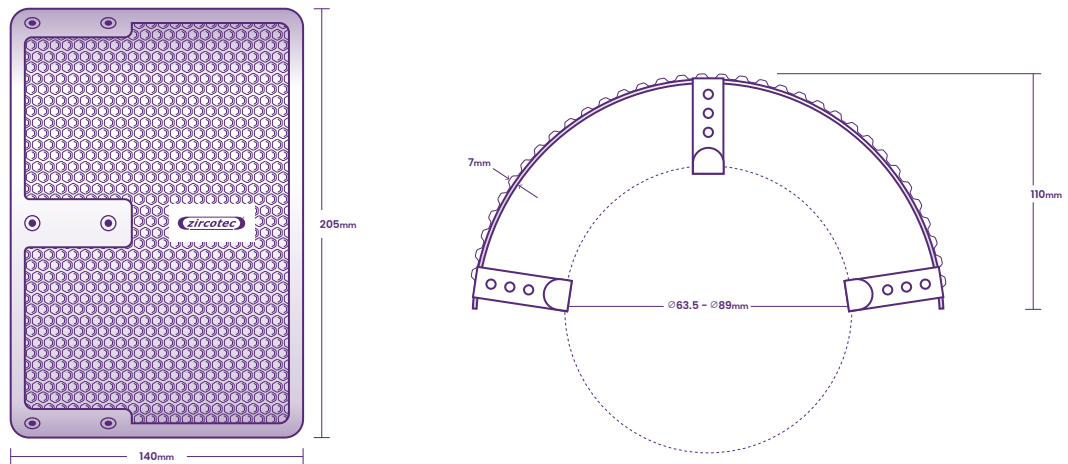

ZircoFlex® SHIELD R is a state-of-the-art heat shielding solution designed for automotive and motorbike applications. Our products are engineered to provide superior thermal protection, reducing heat transfer and enhancing the performance and longevity of various components.

Zircotex[®] SHIELD R Air Intake

Shields air intake cone filters from excessive heat, improving air intake efficiency and vehicle performance. Comes as a universal size with 3x adjustable standoffs for fitting to intake pipes from 63.5mm diameter to 89.0mm.

SPECIFICATIONS

LENGTH	WIDTH	DEPTH	THICKNESS	RADIUS	FIXING				SUITABLE PIPE DIA
					TYPE	PITCH	TAG OR HOLE	INCLUDED	
140mm	205mm	11mm	7mm	-	Universal pipe fitment	-	Hole up to 20mm	4 x Cable ties SS, 360x4.6mm	Ø63.5 - Ø89mm

All products are handmade and therefore dimensions are provided for guidance only.

KEY FEATURES

- High Temperature Resistance: Operational up to 1000°C, ensuring robust performance under extreme conditions.
- Thermal Efficiency: Achieves up to 50% reduction in hot-to-cold face temperatures, protecting critical components from heat damage.
- Durability: Constructed with premium materials for unmatched durability and longevity.
- Versatility: Suitable for a wide range of applications, including exhaust pipes, air intakes, and flat surfaces.
- Utilising our 6mm thick insulation core.

MAINTENANCE AND CARE

Periodically check the shields for signs of wear or damage. Clean with a mild detergent and water. Avoid using harsh chemicals that could damage the material.
